

Oefening

Een frame bestaat uit twee panels:

The image shows a Java Swing window with a title bar. Inside, there are two panels. The left panel contains two text input fields: the top one is labeled 'stageId:' and the bottom one is labeled 'bedrijfsid:'. The right panel contains two text input fields: the top one is labeled 'StageId' and the bottom one is labeled 'BedrijfsId'.

Oefening

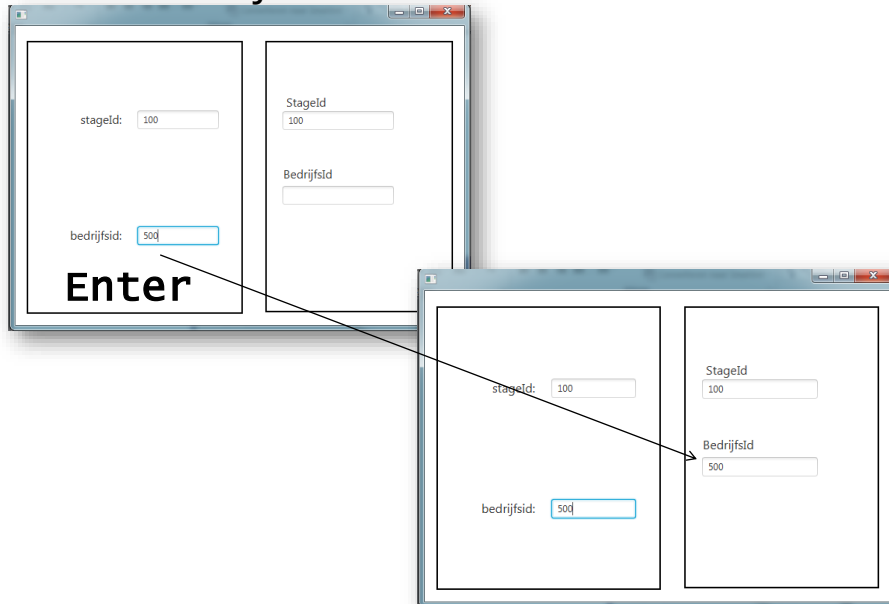

Indien we een stageId in FormPanel ingeven, dan wordt deze in DetailPanel weergegeven:

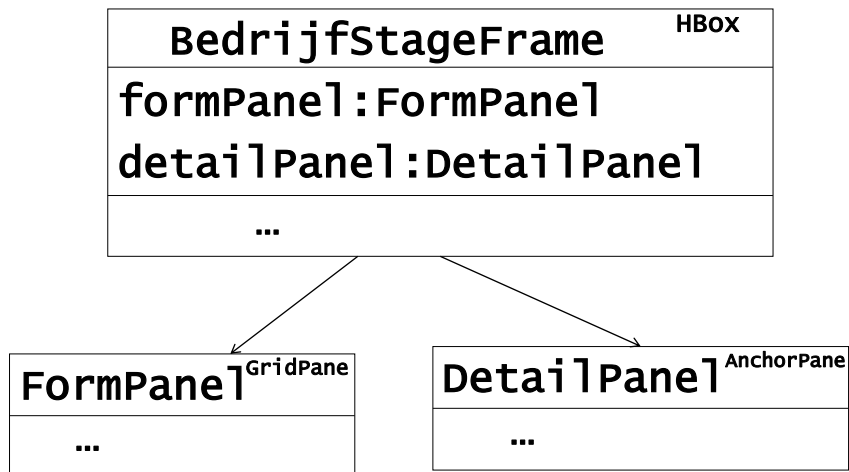

The image illustrates the data flow between two panels. The top window, 'FormPanel', has a 'stageId' field containing the value '100' and a large 'Enter' button. The bottom window, 'DetailPanel', has a 'StageId' field displaying the value '100'. An arrow points from the 'Enter' button in the 'FormPanel' to the 'StageId' field in the 'DetailPanel', indicating that the data is transferred upon clicking the button.

Oefening

Idem voor bedrijfsid:

package gui:

FormPanel en DetailPanel zijn twee losstaande panels
